Piccolo

Linux Debian (gtk) Small Text Editor

Piccolo is a very minimal text editor intended for applications requiring a simple display of monospaced text or very simple editing.

There are neither tabs nor multiple documents.

Piccolo Features:

1. will open or start a file from command line
2. remembers last file by default
3. remembers position and shape on desktop
4. simple search
5. common keyboard editing shortcuts

Shortcuts

Keys	Action
Ctrl-q	quit
Ctrl-s	save
Shift-Ctrl-s	save-as
